Significant Changes

- * Parks Maintenance is now the responsibility of Public Works instead of the Parks, Recreation and Trails Department
- * The Road Rehabilitation Program is funded at \$750,000 an increase of \$50,000 from the prior year and a \$465,000 increase from FY 08-09.
- * Only debt service for vehicle replacement purchases in prior years are in the proposed budget, no vehicle replacements have been programmed.
- * All garage services for the ESTA operated vehicles, but Town owned vehicles are now directly charged to ESTA instead of the Transit/Transportation Department.
- * The Parks Maintenance expenditures are lower than prior years because the final payment for the trackless equipment was made in FY2009-10.

Public Works Department

Administration and Engineering

Core Programs:

Development Engineering: Reviewing development related applications such as lot line adjustments, tentative maps and final maps, and improvement and grading plans. Fees generated by the application process support this activity.

Mobility Commission: Staffing and support for the commission, which is charged with policy development and recommendations regarding all forms of mobility.

Capital Projects Engineering: Design, construction and inspection of public facilities supported by development impact fees, grants, assessment districts, and local funds. This also includes street rehabilitation and master planned facilities (trails, sidewalks, and storm drains).

Assessment Districts: Public improvement and maintenance are provided to eight distinct areas of Town and annual assessments are set to cover the costs.
