

Engineering with LEGO in The Town of Mammoth Lakes

Kids will love to explore and create with our massive collections of LEGO®. While they build elaborate objects, structures and vehicles, they will also explore fundamental principles of engineering and physics. Kids are already naturally gifted creators who get added inspiration from our specially trained instructors resulting in amazing and fun creations. In addition, they learn to collaborate and create without fear of mistakes. The experience is joyful and the impact long lasting. **Learn more at play-well.org**

July 6 - 10 (M~F) \$275 per participant per camp

9:00am - 4:00pm STEM + Jedi Engineering Full Day camp using LEGO
Ages 6-11 Course ID: 82675
